

Northeast Fisheries Science Center Reference Document 10-20

Northeast Fisheries Science Center Publications, Reports, Abstracts, and Web Documents for Calendar Year 2009

compiled by Andrea Toran

September 2010

Recent Issues in This Series

- 09-16 *Black Sea Bass 2009 Stock Assessment Update*, by GR Shepherd. October 2009.
- 09-17 *Stock assessment of summer flounder for 2009*, by M Terceiro. October 2009.
- 09-18 *Stock assessment of scup for 2009*, by M Terceiro. October 2009.
- 09-19 *Proration of Estimated Bycatch of Loggerhead Sea Turtles in U.S. Mid-Atlantic Sink Gillnet Gear to Vessel Trip Report Landed Catch, 2002-2006*, by KT Murray. November 2009
- 09-20 *River Herring Discard Estimation, Precision, and Sample Size Analysis*, by SE Wigley, J Blaylock, and P Rago. December 2009.
- 10-01 *49th Northeast Regional Stock Assessment Workshop (49th SAW) assessment summary report*, by Northeast Fisheries Science Center. January 2010.
- 10-02 *A Standard Method to Apportion Groundfish Catch to Stock Area for the Purpose of Real Time Quota Monitoring under Amendment 16*, by Michael C. Palmer. January 2010.
- 10-03 *49th Northeast Regional Stock Assessment Workshop (49th SAW) Assessment Report*, by Northeast Fisheries Science Center. February 2010.
- 10-04 *Brodeur's Guide to Otoliths of Some Northwest Atlantic Fishes*, edited by R.S. McBride, J.W. Hauser, and S.J. Sutherland. May 2010.
- 10-05 *Estimation of Albatross IV to Henry B. Bigelow calibration factors*, by Miller TJ, Das C, Politis PJ, Miller AS, Lucey SM, Legault CM, Brown RW, Rago PJ. May 2010.
- 10-06 *Biological Reference Points for Spiny Dogfish*, by PJ Rago and KA Sosebee. May 2010.
- 10-07 *North Atlantic Right Whale Sighting Survey (NARWSS) and Right Whale Sighting Advisory System (RWSAS) 2009 Results Summary*, by C Khan, T Cole, P Duley, A Glass, and J Gatzke. May 2010.
- 10-08 In preparation.
- 10-09 *50th Northeast Regional Stock Assessment Workshop (50th SAW): Assessment Summary Report*, by Northeast Fisheries Science Center. July 2010.
- 10-10 *Estimates of Cetacean and Pinniped Bycatch in the 2007 and 2008 Northeast Sink Gillnet and Mid-Atlantic Gillnet Fisheries*, by CM Orphanides. July 2010.
- 10-11 *Northeast Fisheries Science Center Cetacean Biopsy Training Manual*, by F Wenzel, J Nicolas, F Larsen, and RM Pace III. July 2010.
- 10-12 *A Survey of Social Capital and Attitudes toward Management in the New England Groundfish Fishery*, by DS Holland, P Pinto da Silva, and J Wiersma. July 2010.
- 10-13 *Black Sea Bass 2010 Stock Assessment Update*, by GR Shepherd and J Nieland. July 2010.
- 10-14 *Stock Assessment of Summer Flounder for 2010*, by M Terceiro. July 2010.
- 10-15 *Bluefish 2010 Stock Assessment Update*, by GR Shepherd and J Nieland. July 2010.
- 10-16 *Stock assessment of scup for 2010*, by M Terceiro. July 2010.
- 10-17 *50th Northeast Regional Stock Assessment Workshop (50th SAW): Assessment Report*, by Northeast Fisheries Science Center. August 2010.
- 10-18 *An Updated Spatial Pattern Analysis for the Gulf of Maine-Georges Bank Atlantic Herring Complex during 1963-2009*, by JJ Deroba. August 2010.
- 10-19 *International Workshop on Bioextractive Technologies for Nutrient Remediation Summary Report*, by JM Rose, M Tedesco, GH Wikfors, C Yarish. August 2010.

Northeast Fisheries Science Center Reference Documents

This series is a secondary scientific series designed to assure the long-term documentation and to enable the timely transmission of research results by Center and/or non-Center researchers, where such results bear upon the research mission of the Center (see the outside back cover for the mission statement). These documents receive internal scientific review, and most receive copy editing. The National Marine Fisheries Service does not endorse any proprietary material, process, or product mentioned in these documents.

All documents issued in this series since April 2001, and several documents issued prior to that date, have been copublished in both paper and electronic versions. To access the electronic version of a document in this series, go to <http://www.nefsc.noaa.gov/nefsc/publications/>. The electronic version is available in PDF format to permit printing of a paper copy directly from the Internet. If you do not have Internet access, or if a desired document is one of the pre-April 2001 documents available only in the paper version, you can obtain a paper copy by contacting the senior Center author of the desired document. Refer to the title page of the document for the senior Center author's name and mailing address. If there is no Center author, or if there is corporate (*i.e.*, non-individualized) authorship, then contact the Center's Woods Hole Laboratory Library (166 Water St., Woods Hole, MA 02543-1026).

Information Quality Act Compliance: In accordance with section 515 of Public Law 106-554, the Northeast Fisheries Science Center completed both technical and policy reviews for this report. These predissemination reviews are on file at the NEFSC Editorial Office.

Ordering Information

The web version of this document links each bibliographic entry to an e-mail request to the senior NEFSC author or a contact acting in his/her stead, indicated by a [hyperlink](#). To request a copy of a work by postal mail, the address for the senior NEFSC author or contact is associated with the bracketed two-letter code at the end of the bibliographic entry. The key to the codes is as follows:

- MF = NOAA National Marine Fisheries Service, 212 Rogers Ave., Milford, CT 06460-6435
- NB = NOAA/UMass Cooperative Marine Education and Research Program, c/o School for Marine Science & Technology, 706 South Rodney French Boulevard, New Bedford, MA 02744-1221
- NG = NOAA National Marine Fisheries Service, 28 Tarzwell Dr., Narragansett, RI 02882-1199
- NS = NOAA National Marine Fisheries Service, National Systematics Laboratory, Smithsonian Institution, P.O. Box 37012, National Museum of Natural History, Room 57WC, MRC 0153, Washington, DC 20013-7012
- OR = NOAA National Marine Fisheries Service, ASRC Field Station, P.O. Box 190, Orono, ME 04473
- RG = NOAA/Rutgers University Cooperative Marine Education and Research Program, c/o Institute of Marine and Coastal Sciences, P.O. Box 231, New Brunswick, NJ 08903-0231
- RI = NOAA/University of Rhode Island Cooperative Marine Education and Research Program, c/o Graduate School of Oceanography, Narragansett Bay Campus, Narragansett, RI 02882-1197
- SH = NOAA National Marine Fisheries Service, 74 Magruder Rd., Highlands, NJ 07732
- VA = NOAA/Virginia Cooperative Marine Education and Research Program, Virginia Institute of Marine Science, Gloucester Point, VA 23062
- WH = NOAA National Marine Fisheries Service, 166 Water St., Woods Hole, MA 02543-1026

Introduction

The following bibliography consists of three sections: (1) anonymously peer-reviewed publications (“publications”); (2) transparently peer-reviewed and non-peer reviewed publications (“reports”); (3) abstracts for oral presentations and poster displays; and (4) web pages and documents. The bibliography covers works prepared by Northeast Fisheries Science Center (NEFSC) employees which have a 2009 publication date. Authors who were NEFSC employees at the time they composed their works, and/or who were NEFSC employees during all or part of 2009, are designated by capital letters.

Editorial treatment of bibliographic entries is based on the Council of Science Editors style manual, seventh¹ edition.

Works which have a pre-2009 publication date but which were not released until 2009, or which have a 2009 publication date but had not been released at the time this list was published, have been included in this issue. They are noted by an asterisk (*) next to the publication date.

A hyperlinked list of organization acronyms has been included on the following page.

Availability of reprints of publications and of photocopies of reports and abstracts varies for each work. Any initial request for a reprint or photocopy should be directed to the sole/senior NEFSC author of the work. See “Ordering Information” above for details.

Bibliographies of publications, reports, and abstracts for earlier years are available online at: <http://www.nefsc.noaa.gov/nefsc/publications/lists/lists.htm>.

Procedures for Issuing Manuscripts in the *Northeast Fisheries Science Center Reference Document (CRD) Series*

Clearance

All manuscripts submitted for issuance as CRDs must have cleared the NEFSC's manuscript/abstract/webpage review process. If any author is not a federal employee, he/she will be required to sign an "NEFSC Release-of-Copyright Form." If your manuscript includes material from another work which has been copyrighted, then you will need to work with the NEFSC's Editorial Office to arrange for permission to use that material by securing release signatures on the "NEFSC Use-of-Copyrighted-Work Permission Form."

For more information, NEFSC authors should see the NEFSC's online publication policy manual, "Manuscript/abstract/webpage preparation, review, and dissemination: NEFSC author's guide to policy, process, and procedure," located in the Publications/Manuscript Review section of the NEFSC intranet page.

Organization

Manuscripts must have an abstract and table of contents, and (if applicable) lists of figures and tables. As much as possible, use traditional scientific manuscript organization for sections: "Introduction," "Study Area" and/or "Experimental Apparatus," "Methods," "Results," "Discussion," "Conclusions," "Acknowledgments," and "Literature/References Cited."

Style

The CRD series is obligated to conform with the style contained in the current edition of the United States Government Printing Office Style Manual. That style manual is silent on many aspects of scientific manuscripts. The CRD series relies more on the CSE Style Manual. Manuscripts should be prepared to conform with these style manuals.

The CRD series uses the American Fisheries Society's guides to names of fishes, mollusks, and decapod

crustaceans, the Society for Marine Mammalogy's guide to names of marine mammals, the Biosciences Information Service's guide to serial title abbreviations, and the ISO's (International Standardization Organization) guide to statistical terms.

For in-text citation, use the name-date system. A special effort should be made to ensure that all necessary bibliographic information is included in the list of cited works. Personal communications must include date, full name, and full mailing address of the contact.

Preparation

Once your document has cleared the review process, the Editorial Office will contact you with publication needs – for example, revised text (if necessary) and separate digital figures and tables if they are embedded in the document. Materials may be submitted to the Editorial Office as files on zip disks or CDs, email attachments, or intranet downloads. Text files should be in Microsoft Word, tables may be in Word or Excel, and graphics files may be in a variety of formats (JPG, GIF, Excel, PowerPoint, etc.).

Production and Distribution

The Editorial Office will perform a copy-edit of the document and may request further revisions. The Editorial Office will develop the inside and outside front covers, the inside and outside back covers, and the title and bibliographic control pages of the document.

Once both the PDF (print) and Web versions of the CRD are ready, the Editorial Office will contact you to review both versions and submit corrections or changes before the document is posted online.

A number of organizations and individuals in the Northeast Region will be notified by e-mail of the availability of the document online.

Publications and Reports of the Northeast Fisheries Science Center

The mission of NOAA's National Marine Fisheries Service (NMFS) is "stewardship of living marine resources for the benefit of the nation through their science-based conservation and management and promotion of the health of their environment." As the research arm of the NMFS's Northeast Region, the Northeast Fisheries Science Center (NEFSC) supports the NMFS mission by "conducting ecosystem-based research and assessments of living marine resources, with a focus on the Northeast Shelf, to promote the recovery and long-term sustainability of these resources and to generate social and economic opportunities and benefits from their use." Results of NEFSC research are largely reported in primary scientific media (*e.g.*, anonymously-peer-reviewed scientific journals). However, to assist itself in providing data, information, and advice to its constituents, the NEFSC occasionally releases its results in its own media. Currently, there are three such media:

NOAA Technical Memorandum NMFS-NE -- This series is issued irregularly. The series typically includes: data reports of long-term field or lab studies of important species or habitats; synthesis reports for important species or habitats; annual reports of overall assessment or monitoring programs; manuals describing program-wide surveying or experimental techniques; literature surveys of important species or habitat topics; proceedings and collected papers of scientific meetings; and indexed and/or annotated bibliographies. All issues receive internal scientific review and most issues receive technical and copy editing.

Northeast Fisheries Science Center Reference Document -- This series is issued irregularly. The series typically includes: data reports on field and lab studies; progress reports on experiments, monitoring, and assessments; background papers for, collected abstracts of, and/or summary reports of scientific meetings; and simple bibliographies. Issues receive internal scientific review and most issues receive copy editing.

Resource Survey Report (formerly *Fishermen's Report*) -- This information report is a regularly-issued, quick-turnaround report on the distribution and relative abundance of selected living marine resources as derived from each of the NEFSC's periodic research vessel surveys of the Northeast's continental shelf. This report undergoes internal review, but receives no technical or copy editing.

TO OBTAIN A COPY of a *NOAA Technical Memorandum NMFS-NE* or a *Northeast Fisheries Science Center Reference Document*, either contact the NEFSC Editorial Office (166 Water St., Woods Hole, MA 02543-1026; 508-495-2350) or consult the NEFSC webpage on "Reports and Publications" (<http://www.nefsc.noaa.gov/nefsc/publications/>). To access *Resource Survey Report*, consult the Ecosystem Surveys Branch webpage (<http://www.nefsc.noaa.gov/femad/ecosurvey/mainpage/>).

ANY USE OF TRADE OR BRAND NAMES IN ANY NEFSC PUBLICATION OR REPORT DOES NOT IMPLY ENDORSEMENT.
